## **Notification for all Wind GBI Claimants**

It is noted from time to time that Wind GBI claimants are regularly changing their bank accounts without intimation and approval from IREDA. This is a matter of serious concern as the funds transferred are being returned back from the registered bank accounts at IREDA.

All Wind GBI claimants are therefore requested to note that the funds would be transferred by IREDA to their registered bank account provided at the time of registration of their project with IREDA or approved at later stage.

In case of any change of their bank account it is essential that the GBI claimants shall provide justification in writing along with supporting documents well in advance for consideration/approval of their request at IREDA for timely release of GBI funds.
